

Getting Started Stamping

It's as easy as 1-2-3!

“Help! How do I get started? I want *EVERYTHING!!*”

Does this sound like you? Sometimes that beautiful catalog full of ideas and Stampin' Up!® stamps can seem overwhelming, which is the LAST thing I want you to feel! Stamping & scrapbooking are FUN - no need to stress! I've put together this guide to help you get started or to build on your current collection. Just remember: Keep It Simple, “S.I.P.”, and enjoy!

Keep It Simple -

Simply Sent Kits \$42.95 - \$54.95 on pages 14-16 of the 2008 catalog

Purchase a ready-made 'Simply Sent' card kit from Stampin' Up! and you'll be on your way! Each kit comes with die-cut rubber stamps, *pre-cut cardstock and materials*, and fast, easy step-by-step instructions to create cards for a variety of occasions. You'll be stamping beautiful projects in no time! Start with the cards in the kit - then use the stamp set to create many more!

Rather customize? Then just stick with the formula below:

1
Stamps

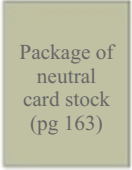

Your favorite stamp set

2
Ink

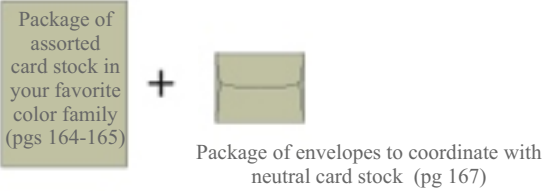

2 or 3 ink pads or a set of smaller ink "spots" (pgs 164-165)

3
Paper

Package of neutral card stock (pg 163)

4
Start Stamping!

Package of assorted card stock in your favorite color family (pgs 164-165)
Package of envelopes to coordinate with neutral card stock (pg 167)

If you're new to stamping, or simply want to make sure you have all the products you need to create fun and unique projects, follow the **S.I.P.** principle: Stamps, Ink, and Paper. Once you select a stamp set, ink pad(s), and coordinating card stock or paper, you have what you need to get started!

You can also build your kit around a favorite technique or way to add color to your projects! Here are a few kit ideas to get you going!
